

Heavy Duty

CONCRETE GEORGIA BUGGY

Move Materials with ease!

Great for use on small or large jobs

Front Rocker Arms - Dumps Effortlessly

Rugged and tough, our Concrete Georgia Buggies feature a heavy duty, all welded steel construction for durable and sturdy transportation of concrete and other bulky materials. Great for moving materials to various locations without having to bare the load, unlike standard wheelbarrows. Easily maneuverable over rough terrain and sturdy enough to last through years of use and jobsite abuse.

JOBSITE MATERIAL HANDLING EQUIPMENT

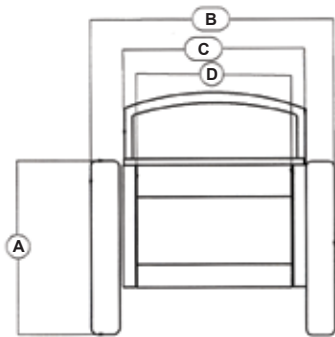

Our **Concrete Georgia Buggy** is ideal for transporting concrete and other bulky materials on small or large jobs. Available in 2 different sizes, 6 or 8 cubic foot capacity. Comes standard with an angled handle, but is also available with a level or detachable handle. Large steel or pneumatic wheels makes transporting over rough terrain an ease; front rocker arms and a sloped inside make dumping effortless and easy to clean.

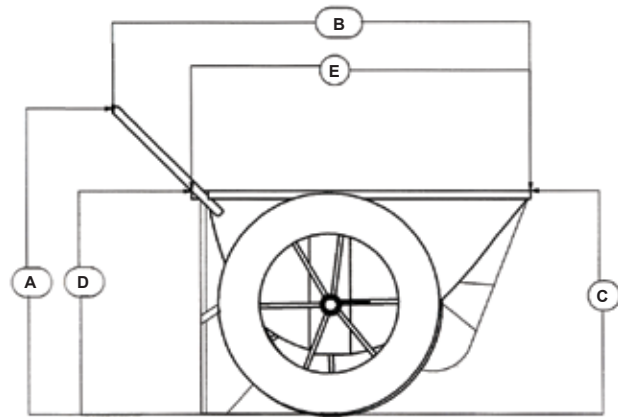

All welded heavy gauge steel construction ensures long-life withstanding years of jobsite abuse. Large industrial tires makes it easy to push and maneuver over difficult terrain. Fully welded rocker arms and rear stabilizing legs provide a sturdy and controlled dumping process. Our model JB-60 is perfect for transporting through narrow spaces and doorways with a width of only 29 1/2".
